

# Take your driving game one level up.

Upgrade to a smarter driving experience.

Driving insights to improve car's performance

Engine and battery health indicator

SMS to emergency contacts in case of an accident

Real-time location sharing on mobile app

## Get IL-Assist on the Insure App

IL Assist feature uses a telematics device that tracks and monitors your car using GPS and on-board diagnostics technology.

Download Insure App by ICICI Lombard

## A simple 2-minute installation

Plug the telematics device in to the OBD Port, which is present in all cars. This is the same port your mechanic uses to scan your car when you take it in for repairs.
